COMAR 14.01.04.05A- Cost Review Study

Board May Determine

November 17, 2025 Board Meeting. The Board had the opportunity to examine Ozempic and Trulicity:

- (1) Whether use of the prescription drug product has led or will lead to:
 - (a) Affordability challenges to the State health care system; or
 - (b) High out-of-pocket costs for patients;
- (2) Whether the use that has led to affordability challenges or high out-of-pocket costs is consistent with:
 - (a) The labeling approved by the FDA; or
 - (b) Standard medical practice.
- (3) Identify the circumstances under which the prescription drug product has or will lead to an affordability challenge to the State health care system or high out-of-pocket costs to patients under §A(1) of this regulation.

14.01.04.05.F Preliminary Determination

Preliminary Determination.

(1) In accordance with §C of this regulation, the Board may make a preliminary determination of whether use of the prescription drug product has led or will lead to affordability challenges for the State health care system or high out-of-pocket costs for patients.

(2) A preliminary determination is non-final and subject to revision and modification.

Next Step after a Preliminary Determination - Draft Report

- Board staff shall prepare a draft of the preliminary determination cost review report that summarizes:
 - the information considered by the Board in conducting the cost review study,
 - the Board's deliberations,
 - the circumstances or indicia reflecting the affordability challenge, and
 - the Board's preliminary determination.
- The public may comment on the draft of the preliminary determination cost review report.

Board Resolutions

14.01.04.05.F Preliminary Determinations

At the November 17, 2025 meeting, the Board made a preliminary determination that use of Ozempic has created an affordability challenge for the State health care system.

The circumstance under which the prescription drug product has led to affordability challenge include:

- total gross spending for Ozempic for state and local governments exceeds 4.87% of gross prescription drug spend for state and local governments (public session).

The Board also made a preliminary determination that the use of Trulicity has created an affordability challenge for the State health care system.

The circumstances under which the prescription drug product has led to affordability challenges include:

- total gross spending for Trulicity for state and local governments exceeds 2.27% of gross prescription drug spend for state and local governments (public session); and
- the percent change in WAC over certain periods is substantially larger than the percentage change in inflation (rate of increase in inflation) (closed session)

Next Steps and Role of the PDASC

Next Step after a Preliminary Determination - Policy Review Process

The purpose of the policy review process is to:

- (1) Based on the best available information, confirm the drivers and market conditions causing the affordability challenge phenomena; and
- (2) Identify the policies that may address those drivers and redress the affordability challenges.

Policy Review Process - Information Gathering

Information gathering:

- (a) Informational hearings;
- (b) Stakeholder Council input;
- (c) Expert testimony hearings;
- (d) Board staff research and analysis; and
- (e) Request eligible governmental entities' information.
